■ Test Execution Report: Myntra App

Project Name: Myntra
Tester: Akash Pardhi
Reference Document: https://www.myntra.com/login
Creation Date: DD-MM-YY
Approval Date: DD-MM-YY
Closure Date: DD-MM-YY

■ Summary by Test Scenario

Test Scenario	Total Cases	Passed	Failed	Pass %
Login & Registration	22	20	2	90.91%
Product Search & Filters	21	20	1	95.24%
Add to Cart & Wishlist	20	20	0	100%
Checkout & Payment	22	20	2	90.91%
Order History & Profile	22	20	2	90.91%
Total	107	100	7	93.46%

■ Highlights

- **Highest Pass Rate:** Add to Cart & Wishlist (100%)
- **Most Failures:** Login & Registration, Checkout & Payment, Order History & Profile (2 each)
- **Common Failure Reasons:** UI misalignment, app crash, gateway timeout, and unexpected behavior during profile update.

■ Failed Test Cases Overview

Test Case ID	Scenario	Issue Description
TC_MYN_LOGIN_21	Login with Unregistered Email	Error message misaligned
TC_MYN_LOGIN_22	Blank Credentials	App crashed unexpectedly
TC_MYN_SEARCH_21	Search Timeout	App froze during delayed search
TC_MYN_PAY_21	Payment Gateway Failure	App stuck on processing screen
TC_MYN_PAY_22	Invalid Coupon	Order placed without validating coupon
TC_OHP_21	Order History Not Loading	Page keeps loading, no data shown
TC_OHP_22	Profile Update Failure	Error 'Something went wrong' displayed

■ Recommendations

- **UI Validation:** Improve error message alignment and consistency.
- **Crash Handling:** Implement robust exception handling for blank inputs and timeouts.
- **Payment Gateway:** Add retry mechanisms and better feedback for failed transactions.
- **Profile Management:** Ensure backend validation and error handling for updates.
